PROJECT

Sahabat Tembakau — Company Website

Independently developed the complete website using native PHP, HTML, CSS, JavaScript, and MySQL. Handled frontend and backend development as well as the production workflow: Git/GitHub, cPanel hosting, domain, HTTPS/SSL, deployment, SEO, and Google Search Console indexing. The website is live at sahabatterbakau.com.

ORGANIZATIONAL EXPERIENCE

Anforcom — Event Division

Supported the preparation and execution of Informatics-related event activities, including coordination and on-site implementation.

LKKMPD Informatics — Field Coordinator

Supported participant coordination, communication, and smooth field execution throughout the program.

Sosial Project Angkatan — K3 Division

Supported health, safety, and field readiness during student social project activities.

Political School BEM — Logistics Division

Supported logistical preparation, equipment, materials, and operational needs for event activities.
